OBJECTIVE

4th-year Computer Engineering student with hands-on frontend development experience in React and Tailwind CSS, including Shopify theme customization (Liquid, Theme App Extensions) and API integration. Looking for a frontend developer internship or full-time role to build production-grade interfaces and grow as a web developer.

EDUCATION

B.Tech in Computer Engineering, K.J. Somaiya Institute of Technology CGPI: 9.21 (till third year)	Expected 2027
Diploma in Computer Engineering, Government Polytechnic Mumbai 92.33% in diploma	2021 – 2024

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React.js, Tailwind CSS

E-commerce / CMS: Shopify (Liquid templating, Theme App Extensions), Shopify API integration

Tools & Other: Git, GitHub, Postman, Python, Java

Soft Skills: Communication, active listening

EXPERIENCE

Frontend and Shopify Developer Intern <i>Axentra OS • Matunga, Mumbai</i>	<i>Jun 2026 – Sep 2026</i>
---	----------------------------

- Built and customized responsive user interfaces using React.js and Tailwind CSS for client-facing web projects.
- Integrated Shopify store and product data into frontend components using Shopify APIs, enabling dynamic, real-time content rendering.
- Developed and modified Shopify theme files using Liquid to customize storefront layouts and functionality.
- Built and configured Theme App Extensions to extend Shopify storefront capabilities without altering core theme code.
- Collaborated with the team on debugging and cross-device performance optimization.

Frontend Developer Intern <i>Creative Mantra • Malad, Mumbai</i>	<i>Jul 2023 – Jan 2024</i>
--	----------------------------

- Worked on the frontend of Manuscript.ai, contributing basic HTML, CSS, and JavaScript for page structure and styling under guidance from senior developers.
- Completed a 6-month on-site internship, gaining consistent hands-on exposure to a professional web development workflow.

PROJECTS

Studio27 – Salon Booking System (*Frontend, In Progress*)

- Building responsive frontend interfaces using React.js for a salon appointment booking and service management platform.
- Developing UI components for service selection, appointment scheduling, and booking confirmation flows. [Live Demo](#)

ExamForgeAI

- Built a cloud-based tool using React.js and Tailwind CSS that lets users upload text-based PDFs and generates content using the Gemini API.
- Stored uploaded PDFs in Supabase storage buckets, persisting the bucket link and associated chat history in Firebase.
- Focused on integrating Supabase and Firebase for reliable cloud storage and data persistence. [Live Demo](#)

Shion House – Responsive E-commerce Frontend

- Developed a responsive e-commerce frontend using HTML, CSS, and JavaScript with a clean, modern interface.
- Built interactive components and layouts ensuring cross-device compatibility and consistent UX. [Live Demo](#)

Bhandarwadayachi Mauli – 50th Anniversary Navratri Utsav Website

- Built interactive frontend sections using React.js, HTML, CSS, and JavaScript for a community event website.
- Designed a responsive, user-friendly interface for event information and navigation; deployed via Netlify. [Live Demo](#)

CropCast

- Contributed the frontend for a crop-recommendation tool that analyzes soil and temperature inputs to suggest suitable crops for farmers. [Live Demo](#)

Carbon Tracker

- Contributed the frontend for a tool that calculates a user's carbon emissions from their inputs and generates personalized reduction tips. [GitHub](#)
